

Turn Around (Pasinski/Pasinski 01.02.03) - Tonart G

**You will always do the right
You'll ever go upright
The righteousness is without bound
You'll never give that ground**

**Don't go stubborn to the abyss
But never lost your faith
Never be like a fool can be
And take the way you see**

**Want to go away - turn around and stay
Make a compromise for another way
It's in your brain - you can see the sign
That makes the mirrors blind
That makes all the mirrors blind**

Refrain:

**No two stars shines equal bright
No way are real straight
See the plant that break the stone
And make it to your own**

Refrain:
